ANNOUNCEMENT

We are authorized to announce G. W. DETHAERAGE a candidate for Assessor of Madison county, subject to the action of the Democratic party.

"L. N. N." Throckmorton, the Republican nominee for Commissioner of Agriculture, will see the biggest wreck he ever saw in his life on Tuesday after the first Monday. —Menno Co. Messengers.

A MATTER to be regretted is that there are not enough Republicans in this country to fill the offices, but there is some consolation in the fact that a few willing Democrats are standing around ready to offer their services when emergencies arise.—Panegraph.

You surely do not allude to the bolters. —Be careful and more specific.

DEMOCRATIC'S SAFEGUARD AGAINST A REPETITION OF THE CRIME OF '96.

Editor Climax.

The Democrats of the proud Commonwealth of Kentucky are preparing—and the preparation is evidence sufficient that the stain of Republicanism will be erased from her fair name, never to be placed in history again so long as intelligence, justice and competency can weep the fault of illiteracy wrong and insinuate, which are attributes of the Republican party.

The average illiteracy in the State of Kentucky is 21.6, and does any one doubt for a moment which party assumes that illiteracy?

With such gallant and gifted Democratic leaders as compose our State ticket, standing as they do on a platform embodying every principle of justice, we will march to victory, defeating Hannan and Taylor's ragtime howlers by 40,000 votes.

The Democratic party acknowledges her offspring, the Goebel amendment to the election law in the State of Kentucky, and will christen it "The light that drives from our land Republican darkness," and from henceforth the womb of Democracy shall be called blessed in giving as a child that will guard our interest and save us to Democracy from Republican slaveloading, such as the great crime of '96?

Republicans hereabout acknowledge that Kentucky is a Democratic State, and in the same breath exclaim that Goebel will steal the election. Now, if Kentucky is Democratic, how is the Goebel bill to assist Democrats in stealing it, for parties do not have to steal what is theirs by right of suffrage.

It seems to us then that the Goebel amendment must be for some other purpose, viz.: To keep the Republican party from having hold on property that they have.

The attitude of the Republican party toward the Goebel amendment, is like the ravings of a thief, who, once having stolen what he has, for the protection of his property, places the necessary safeguards around it in order to protect it, from a known thief, as well as suspected ones.

So much then for the noble offspring, the progeny of Democracy, on which a Republican Governor looked with secret contempt and actually refused to recognize the birth.

The concession of Louisville was composed of representatives of several who formulated a platform on which any Democrat can stand who desires to be classed as a follower of Jefferson, the founder of the party, of which Bryan is the living embodiment of these principles, which are dear to the heart of loyal Democrats.

The platform as adopted expresses the will of the majority in Kentucky, in unequivocal language, regarding the principles of the greatest and grandest political organization the world has ever seen blossomed into a flower of justice and equality, bearing the fruitage of liberty.

At Lexington in July the Republican party met and formulated a minority

report in which they denounced—in fact a party incapable of grasping broad and generous ideas, stand ready to denounce the good and applaud the wrong, for the sake of argument. It is admitted that Democrats have many faults, while the Republicans have but two.

"There is nothing good in what they say, there is nothing good in what they do."
